DETAILED ACTION

Allowable Subject Matter

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or fairly suggest:

- A transparent anode as the pixel electrode with an auxiliary electrode on its surface wherein the auxiliary electrode is branched off from a feeding point of the driving circuit and the light emitting elements are disposed only in regions adjacent to the auxiliary electrode and the light transmitting members are disposed in other regions distant from the auxiliary electrode, in combination with the remaining claimed limitations as called for in claims 1 and 9 (claims 2-8 and 10-15 are allowable for the same reasons since they depend on claims 1 and 9).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Prior Art Cited

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hosokawa (US 6,933,672) discloses a display apparatus comprising a plurality of light-emitting devices including a cathode (22), a transparent anode (16), an auxiliary electrode (18), and light transmitting members (60). The light emitting elements (24) are only disposed in regions adjacent to the auxiliary electrode (18), and the light-transmitting element 60 is disposed

in other regions away from the auxiliary electrode (see Fig. 5). However, the anode is the common electrode (20) and the cathode (22) is the pixel electrode.
